Troubleshooting

Problem	Fix
Too many reviews every day	Stop adding new cards for 3-5 days; lower the daily new-card limit
Same cards keep failing	Rewrite them: split into smaller facts, add a cue or a diagram
Missed several days	Clear the oldest due cards first in short sessions; no new cards until caught up
Cards feel too easy	Check you are not overusing "Easy"; add harder cards from your error log
Getting bored	Mix decks, keep sessions to one Pomodoro, and review at a fixed time
