

Marking Scheme Self-Evaluation Checklist

Use the official CBSE marking scheme for the paper you attempted. Mark strictly — give a mark only if the point is actually written.

For every answer

- ☐ Each value point in the marking scheme: present? Tick it, or write 0 for that part
- ☐ Numericals: formula written, values substituted with units, correct final answer with unit
- ☐ Derivations: diagram, starting principle, each step on its own line, final result boxed
- ☐ Diagrams: labelled, arrows/directions correct, neat
- ☐ Accountancy: correct format, narrations for journal entries, totals match
- ☐ Internal choice: did you pick the question you could answer best?

Score summary

	Marks
Marks scored	
Lost to concept gaps	
Lost to careless slips	
Lost to presentation	
Lost to time (not attempted)	
Maximum marks	

Check: scored + all lost marks = maximum marks.

Error types and fixes

Type	Fix before the next paper
Concept gap	Re-read the NCERT section; solve 3 fresh questions on it
Careless slip	Write the exact slip on a sticky note; check that step in every paper
Presentation	Write one full model answer of that type
Time loss	Attempt that section first next time, with a strict time limit

Round 3 plan (7-10 days later)
